

You should make ten booklets of ADDITION Tables per child.

Print the Addition booklet cover - page 2 only - on **RED** paper.
Print 5 sets of copies of pages 3-7 on **WHITE** paper.

Printing the 2nd side is a bit tricky if you are not familiar with booklet printing.

Addition of ONE (p.3) does not have a backside to print - leave the second side blank.

Pair the following for printing:

Addition of TWO with Addition of NINE	(p.4 front with p.11 back)
Addition of THREE with Addition of EIGHT	(p.5 front with p.10 back)
Addition of FOUR with Addition of SEVEN	(p.6 front with p.9 back)
Addition of FIVE with Addition of SIX	(p.7 front with p.8 back)

You can print all sets of the first side but it may be easiest to do the back sides one set at a time.

Cut each set of pages in half at 5.5 inches.

Line up the booklet pages with ONE on the top right followed by TWO, THREE, FOUR and FIVE.

Fold all five pages at once with ONE staying on the outside. Add the folded cover.

Staple the center bindings with a long handled stapler

or punch two holes with a heavy duty 2-hole punch and tie binding.
