

You should make ten booklets of SUBTRACTION Tables per child.

Print the Subtraction booklet cover - page 2 only - on **GREEN** paper.  
Print 5 sets of copies of pages 3-7 on **WHITE** paper.

Printing the 2nd side is a bit tricky if you are not familiar with booklet printing.  
Note that with Subtraction the first page will be the Table of EIGHTEEN and will go in reverse.

Pair the following for printing:

|  |                             |
|--|-----------------------------|
| Subtraction of EIGHTEEN with Subtraction of ONE  | (p.3 front with p.20 back)  |
| Subtraction of SEVENTEEN with Subtraction of TWO | (p.4 front with p.19 back)  |
| Subtraction of SIXTEEN with Subtraction of THREE | (p.5 front with p.18 back)  |
| Subtraction of FIFTEEN with Subtraction of FOUR  | (p.6 front with p.17 back)  |
| Subtraction of FOURTEEN with Subtraction of FIVE | (p.7 front with p.16 back)  |
| Subtraction of THIRTEEN with Subtraction of SIX  | (p.8 front with p.15 back)  |
| Subtraction of TWELVE with Subtraction of SEVEN  | (p.9 front with p.14 back)  |
| Subtraction of ELEVEN with Subtraction of EIGHT  | (p.10 front with p.13 back) |
| Subtraction of TEN with Subtraction of NINE      | (p.11 front with p.12 back) |

You can print all sets of the first side but it may be easiest to do the back sides one set at a time.

Cut each set of pages in half at 5.5 inches.

Line up the booklet pages with EIGHTEEN on the top right followed by SEVENTEEN thru TEN.

Fold all pages at once with EIGHTEEN staying on the outside. Add the folded cover.

Staple the center bindings with a long handled stapler

or punch two holes with a heavy duty 2-hole punch and tie binding.
