

PIN FLAGS

This set is designed to fit in a tackle box.

Pin flags are use on a map placed on a bulletin board by continent.
Student is to pin the appropriate flag to the appropriate country.

To mount these flags I used long Dritz brand quilting pins - about 1-1/12 in long.
I color coded the flag pin heads by country.

North America - white, Europe - red, Asia - yellow, Africa - green,
South America, blue, Australia & Antarctica - black

Print on 1 x 2-5/8 (30 per page) address label stock.

If lamination is desired cover entire sheet of flags with contact paper before cutting,
or put laminate **only on top** of labels and run through laminator.

Place labels carefully centered on pin and
stick both edges together to make a 2- sided flag.

This set was designed with
freeware image flags from www.33ff.com/flags/
