

## **HUNDRED BOARD Tiles and Chart**

1). This chart can be printed on white cardstock and laminated for use as a control chart.

2). This hundred board layout is also designed to fit on wooden Scrabble tiles. Recycle old game tiles or buy wooden tiles at your local craft store.

For use with wooden tiles print the page 8-1/2 x 11 full page label stock. Laminate only the top side. Leave sticky back un laminated on the back side.

After laminating, cut carefully between the lines and mount each numeral on a wooden tile using the label sticky back to adhere to wood.

This material is tackle box friendly and is included as part of my Teaching from a Tackle Box collection for Intro to Math.

-----

If you prefer to have larger Hundred Board manipulatives you can use white 1x1 or 2x2 inch white ceramic tiles from your local hardware store.

Write the numerals on in Sharpie marker and spray with fixative to prevent the numeral from rubbing off.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100
